Capt. Harvey

SAN FRANCISCO FIRE DEPARTMENT

Date: September 28, 1994

From: Robert B. Fuller, BFP-Plan Checking *BD7*

To: Dot Yee, DPW/BBI Acting Superintendent
Chief Richard Condon, Fire Marshal

Through: Richard Young, DPW/BBI Mechanical Systems
Lieutenant Mario Ballard, BFP-Plan Checking *TEM*

Subject: RETRO HIGH-RISE SPRINKLER ORDINANCE

Reference: Ordinance No. 377-93

Enclosure: Three lists

On February 22, 1994, the Acting Superintendent notified the owners of 272 "existing" high-rise buildings that may be required to install sprinkler systems. These buildings are shown on the enclosed list titled "'Retro' Sprinkler Notification List."

The ordinance exempted apartment houses, and such buildings were not included in the Notification List.

The ordinance also exempted qualified historical buildings. At the time the building owners were notified about the ordinance, it was unclear which buildings met the qualifications of historic and, therefore, were exempt. Consequently, historic buildings were included on the Notification List.

Since then, the Deputy Director of Public Works, in consultation with the City Attorney and the Department of City Planning, determined that buildings listed on Federal or State landmark or historical listings are exempt, as are buildings in Articles 10 and 11 of the San Francisco Planning Code.

Based on these criteria, I have divided the original Notification List into two lists. One is titled "Historic High-Rise Buildings." It contains 155 buildings apparently exempt from the ordinance. The remaining 117 buildings remain subject to the requirements to install sprinklers. They are shown on the list titled "Nonhistoric 'Retro' Sprinkler List."
